(57) **CLAIM**

The ornamental design for an elastomeric flying disc, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the elastomeric flying disc in accordance with the present invention;

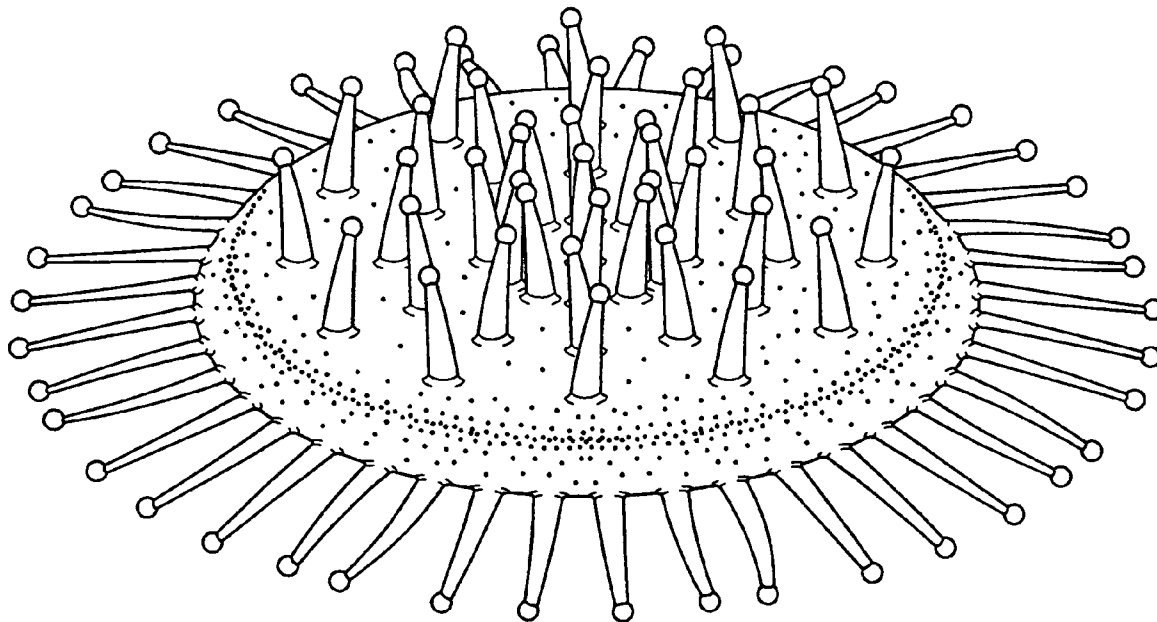

FIG. 2 is a top view thereof;

FIG. 3 is a bottom view thereof; and,

FIG. 4 is a front side view thereof.

The positions of the top surface projections vary among FIGS. 1, 2 and 4 due to their flexible nature. The visual appearance of the opposing and adjacent sides of FIG. 4 is essentially the same as in the front view presented, any differences being due to variations in the positions of the flexible surface projections.
